

# 2015

## SCEEP, MITE & SEP Programs

THIS IS YOUR WORLD.  
HOW WILL **YOU** MAKE A DIFFERENCE?

“ This program helped me decide if engineering is something I might want to pursue in college. ”  
2014 SEA Participant

Center for Engineering  
Diversity & Outreach

University of Michigan  
College of Engineering

**Center for Engineering Diversity and Outreach**

1221 Beal Avenue  
Ann Arbor, MI 48109-2102

**SCEEP** is a 11 day residential program for current 11th graders. SCEEP will expose participants to various engineering disciplines as team are challenged to solve a real-life, multifaceted problem through engineering. Discover the Michigan Difference and explore engineering to see if it's your passion! SCEEP will also help you to get a head start on the college application process. **Session 1: Jun. 22 - Jul. 2, 2015;**

**Session 2: Jul. 21 - Jul. 31, 2015**

**MITE** is a 13 day residential program for current 9th & 10th graders. MITE will excite, engage, educate and empower participants with a stimulating, design-based project. Learn about what makes U-M and Michigan Engineering the place to be! **Jul. 6 - Jul. 18**

**SEP** is a 10 day commuter program for 7th and 8th graders. Explore biology, chemistry, physics, ecology, earth science, math, and economics all in one week! Then learn how to apply these rich subjects to a rigorous and relevant engineering design challenge during week two. **Jul. 6 - Jul. 17 at the Ford Resource and Engagement Center (FREC) - SW Detroit**
